

Fast investment program (FIP)

A Decentralized Advanced Trading Protocol

Fast investment program (FIP) is a token-based investment program focused on crypto market of most popular cryptocurrencies trading. Compared to other trade programs, FIP using a different algorithm of trading which have fast income without losses.

We are reinventing the global equity blockchain – that is secure, smart and easy-to-use platform, and completely disrupting the way businesses raise capital and the way investors buy and sell shares.

FIP (Fast investment program) is an advanced unique automatic Trade and Investment Platform based on the BEP20 network.

The investments on our platform are fully decided by the token holders and will be verified and saved within our smart contract.

Unlike many other tokens launching on the BEP20 network, we have a REAL use case, which is not limited to the BEP20 network. With the continuous evolvement of Blockchain products, new opportunities will pop up for our platform, our investments are not bound to any chain, only the re-distribution of the profit is bound to the BEP20 chain.

In First phase, our goal is to take over traditional investments as we know them today, with no need for expensive hedge funds, investment bankers, or wealth managers. With FIP, we will bring the power of trading back to the people!

In the next phase FIP will be a Cross-Chain Protocol to Bridge compatible blockchain Networks. It will include a full feature exchange.

While existing solutions offer to solve just one problem at a time, our team is up to build a secure, useful, & easy-to-use product based on private blockchain. It will include easy cryptocurrency payments integration, and even a digital arbitration system.

At the end, Our aims to integrate all companies, employees, and business assets into a unified blockchain ecosystem, which will make business truly efficient, transparent, and reliable.

Passive Income by Holding

By HODLing FIP in your wallet, you will be automatically rewarded a percentage of the Distribution.

Passive Income by Investment

Our returns of the investments will be distributed pro-rata, meaning the more tokens you hold, the bigger the portion of the returns you will get.

Smart Investment Rewards

Our primary process is to decentralize investments; there is no need for expensive hedge funds, investment bankers, or other companies that try to profit from you, with your own money!

At \$FIP we give the power back to the people. All rewards on our investments will be directly paid back to the holders, based on the number of tokens they held when the investment was initially done. The more tokens you hold, the higher percentage of the share you will receive.

Since we are operating on the BEP20 chain, at first all investments will be paid in FIP Token and in the future in USDT or BNB.

Initially, we will start with the weekly distribution of the rewards and will scale up or down according to the feedback we will receive.

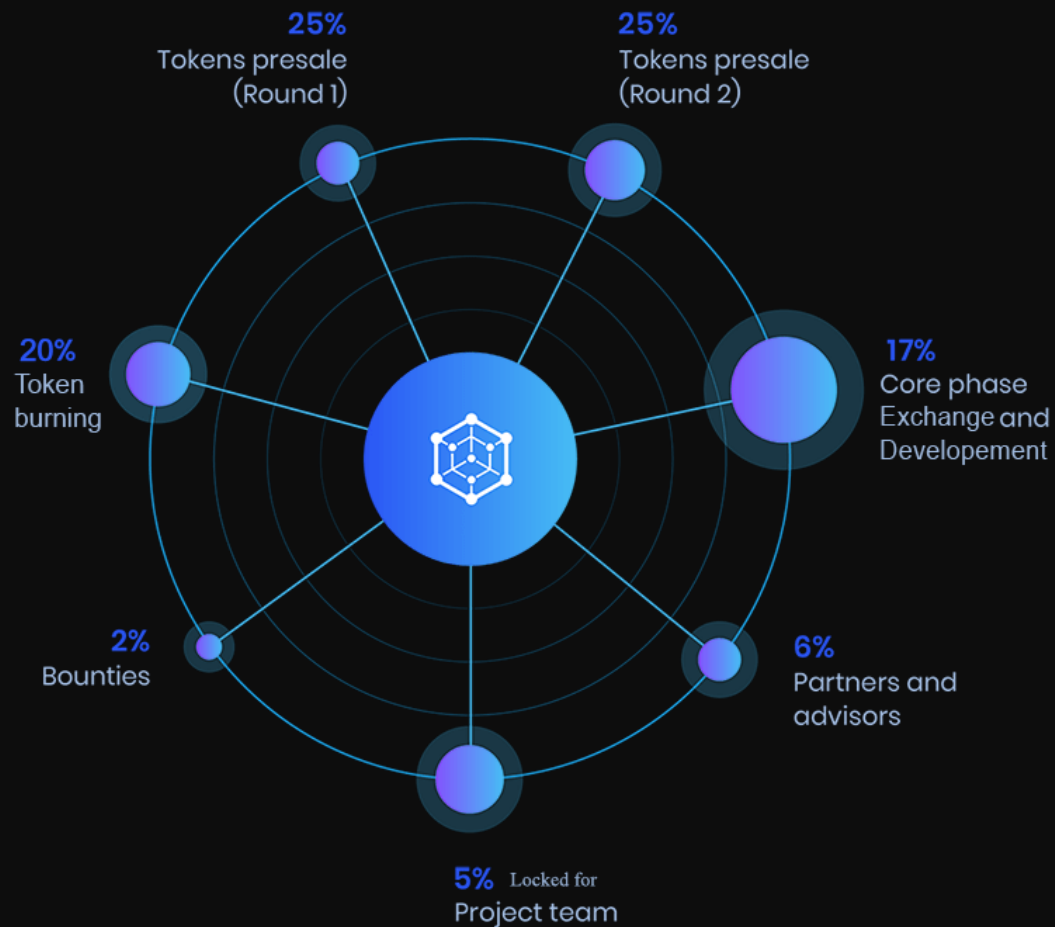

Maximum Supply

The maximum supply of FIP is set to be 210 million tokens only.

Supply Distribution

The chart and the figures below reflect the distribution allocation of FIP's total supply

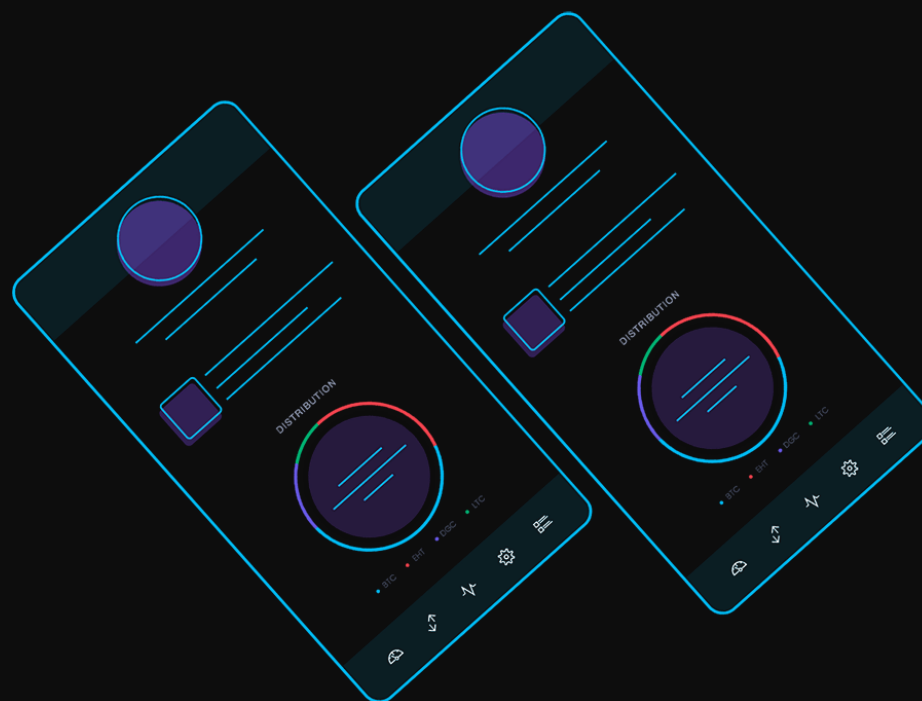

Marketing

FIP will use marketing at its best.

With the use of (Crypto) Influencers, Social media campaigns, and even traditional ways of marketing (advertisements, billboards, and sponsored articles), we will make sure "the word goes out"

Visit the official website to learn more about FIP, its listings, utilities and future roadmap.

FIP – AirDrop info :

Join channel ,
after add wallet : 100+10 FIP

Referral : 20 for Each

Packages info :

Starter Pack : 1000 FIP = 50 \$

Supporter Pack : 5000 FIP = 200 \$

Holder Pack : 10000 FIP = 333 \$ (Limited to 1000 packages)

Business Pack : 100000 FIP = 2000 \$ (Limited to 100 packages)

Partner Pack : 500000 FIP = 5000 \$ (Limited to 20 package)

Holder Pack gets 0.5% extra commission FIP per month (It will be adjusted in the near future)

Business Holders get 3% extra commission FIP per month (It will be adjusted in the near future)

Partner Holders get 7% extra commission FIP per month (It will be adjusted in the near future)

Minimum withdrawal request 1100 FIP

FIP Earnings and Passive income :

There are two ways to earn with Fast Investment Program :
Referral program and Passive income with Investment

Referral program :

Join our Telegram channel and Bot or Register to the site and get rewards, then refer FIP to your friends and followers by the unique link that is generated for you and earn rewards. If you get a successful referral, reward points will be credited to your account that can be exchanged for cash or tokens.

Passive income :

As a Holder, Business or Partner you will receive passive income monthly. In another way, you can get FIP tokens from our referral system and Hodl them until your tokens reach to 10,000, you will start receiving passive income automatically.
